Boiler Return

	Urgent	**Not Urgent**
Important	**Do - (Your MVP)** ● Report lost or found items through a form containing the item name, description, category, date, and location. ● Browse all reported lost and found items through a centralized listing page. ● View individual item details and contact the person who reported it.	**Schedule - (For V2.0+)** ● Purdue student authentication using university email addresses. ● Email notifications when a potentially matching lost or found item is reported. ● Interactive campus map showing item locations.
Not Important	**Delegate - (Use a library)** ● Use React Router for navigation between pages. ● Use browser APIs and built-in Local Storage functionality to persist item listings and uploaded image references. ● Use React Hook Form to handle form inputs, validation, and submission for reporting lost or found items.	**Delete - (Cut it)** ● AI-powered image recognition to automatically identify lost belongings. ● Real-time chat and messaging between students. ● Gamification, reward points, and leaderboards.
